Frontend-focused Software Engineer with 1.5 years of hands-on experience building scalable web applications using React. Strong in crafting responsive, user-centric interfaces while also working across the backend with Node.js and cloud services like AWS (Lambda, DynamoDB, API Gateway). Familiar with GCP services such as Cloud Run and Cloud Functions. Known for quickly adapting to new tools, writing clean code, and contributing effectively in fast-paced teams.

PROFESSIONAL EXPERIENCE

Software Engineer | NIAI Engineering, Madurai

Jan 2025 – Present

- Built and maintained scalable, responsive web applications using React, focusing on clean architecture and reusable components.
- Developed and integrated REST APIs and WebSocket-based real-time features for dynamic user interactions.
- Worked with Micro Frontend Architecture (MFA), contributing to a system with **7 independently** deployable applications across **4 major dashboards**. Played a key role in developing an **Integrated Patient Care** System, improving modularity and independent deployment through MFA.
- Strong hands-on experience with core frontend technologies: HTML, CSS, JavaScript, and React. Contributed to an AI-enabled project focused on transforming *4000 paasurams* into a structured, interactive digital experience.

Integrated AI-based explanations and optimized prompt usage to reduce token consumption while maintaining accurate outputs.

EDUCATION

Master of Computer Application

Hindusthan college of engineering and technology, Coimbatore | Graduated July 2024

PROJECT

HealthClub – Cloud-Based Health Monitoring Platform

- Built a full-stack health tracking system for monitoring Blood Glucose, BP, and Cholesterol with HSA service integration.
- Designed frontend using React and deployed via AWS S3 (static hosting). Implemented serverless backend using AWS Lambda and API Gateway for scalable APIs.
- Developed as a client demo to gain hands-on experience with AWS cloud architecture.
- Live: <http://healthclubapp.s3-website.ap-south-1.amazonaws.com/>
- GitHub: <https://github.com/Balakrishnamoorthy/HealthClub>

BillFlow – Full-Stack Billing System

- Developed a production-ready billing application with invoice generation and modern UI.
- Built using React for frontend with scalable component structure. Designed to replicate real-world commercial billing software workflows.
- Live: <https://billfloo.netlify.app/>
- GitHub: https://github.com/Balakrishnamoorthy/BillFlow_FE

WebRTC Video Call App (POC)

- Built a peer-to-peer video calling and chat application using WebRTC.
 - Implemented real-time communication features as a proof of concept for healthcare system integration.
 - Live: <https://videoocall.netlify.app/>
 - GitHub: <https://github.com/Balakrishnamoorthy/webrtc-video-frontend>
-

PortfolioForge – No-Code Portfolio Builder

- Developed a dynamic portfolio generator with customizable templates. Allows users to create and export ready-to-deploy React portfolio projects. Focused on usability and rapid content generation.
 - Live: <https://portfolio-forge-pi.vercel.app/>
 - GitHub: <https://github.com/Balakrishnamoorthy/PortfolioForge>
-

Weechatrix – Real-Time Chat Application

- Built a WhatsApp-like chat application using WebSockets for real-time messaging.
 - Implemented message synchronization and live communication features.
 - Live: <https://weechatrix.netlify.app/>
 - GitHub: <https://github.com/Balakrishnamoorthy/chat-app>
-

Additional Projects

- **Expense Tracker (Collaborative):** Group expense tracking app with shared calculations.
Live: <https://expencerapp.netlify.app>
 - **HomeworkHub:** MERN stack app for homework management and communication.
GitHub: <https://github.com/Balakrishnamoorthy/homeworkhub>
 - **Viberoutes Tours Website:** Developed and deployed a travel website; applied basic SEO optimizations.
Live: <https://viberoutetours.netlify.app/>
-

CERTIFICATIONS

- Frontend Development (HTML, CSS, JavaScript, React) – Udemy
- C Programming – Udemy
- Java Programming – Pantech eLearning
- Psychology of Stress, Health and Well-being – NPTEL
- Soft Skills Development – NPTEL
- TCS iON NQT (Score: 69.73%) – TCS iON

ACHIEVEMENTS

Presented a research paper on **Water Scarcity** at a technical forum

Presented a paper at the International Conference on Transforming Engineering Systems for Sustainability

EXTRACURRICULAR ACTIVITIES

- Zonal Runner-Up in Volleyball
